ReSelected

Each year we receive some calls for Mary Washington Asparagus and are now prepared to furnish a superior stock of both Seed and Roots of this variety at 10% less than prices quoted herein for Giant Wash- ington Asparagus.	\$.75	Seed Packet	\$.50
	1.25	1/4 Pound	1.50
	2.50 lb.	1/2 Pound	2.50
	2.40 lb.	1 lb.	5.00 lb.
	2.25 lb.	2 lbs.	4.80 lb.
	2.00 lb.	3 lbs.	4.50 lb.
	1.90 lb.	5 lbs.	4.00 lb.
	1.75 lb.	10 lbs.	3.80 lb.
	1.50 lb.	25 lbs.	3.50 lb.
		50 lbs.	3.00 lb.

1927-Crop Seed, as
long as it lasts, at
HALF PRICE.
Particulars upon
request.

Seed Orders up to and including Five (5) Pounds are shipped by Prepaid Insured Parcel Post.
Larger orders are shipped by Freight, Parcel Post or Express, transportation charges collect.

—Special discount on larger quantities of both Roots and Seed; prices on application—

Unless otherwise specified, we will use our best judgment as to method of shipment.

SEED will be shipped a few days after order is received.

ROOTS (CROWNS) will be shipped at the usual Spring digging time in March or April, or during November and December for Fall plantings.

PLANTING SEED—Seed is spaced about one inch apart in the seed row and rows are spaced about three feet apart, requiring about five pounds of seed to sow one acre. This manner of sowing will produce the maximum number of Giant Roots per acre.

FIVE POUNDS OF SEED sown on one acre should produce 30,000 to 40,000 Giant Roots, sufficient to set 5 to 7 acres of asparagus, when spaced eighteen inches by five feet.

PLANTING ROOTS FOR GARDEN PLANTINGS—Roots are usually set from two to three feet apart in the asparagus trench and the trenches are spaced from three to four feet apart.

PLANTING ROOTS FOR COMMERCIAL PLANTINGS—Roots are usually set from eighteen inches to two feet apart in the trenches and the trenches are spaced from four feet to six feet apart. We now advocate spacing trenches five feet apart and setting the roots eighteen inches apart in the trench, requiring about 6000 roots to set one acre.

CULTURAL DIRECTIONS sent with each order, show the methods of Soil Preparation, Fertilization, Planting, Cultivation, Spraying, etc., as practiced by the best Jersey Growers; we think they will be helpful to you.
